

# COMNET

Producing of communications & data centers equipment since 1997th

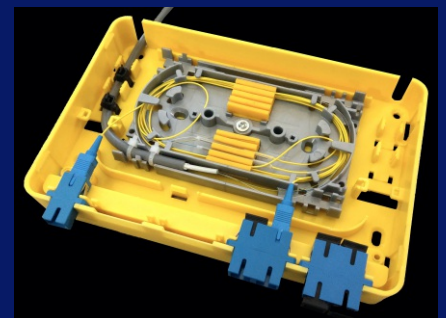

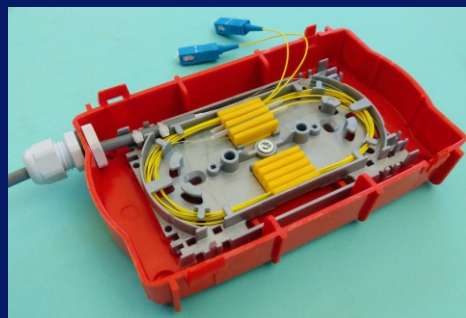

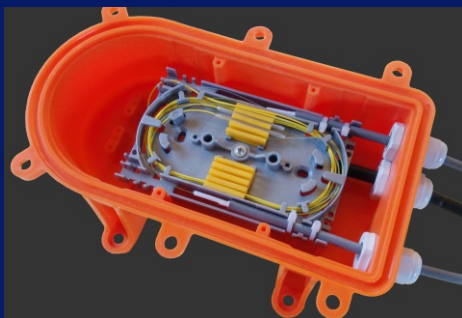

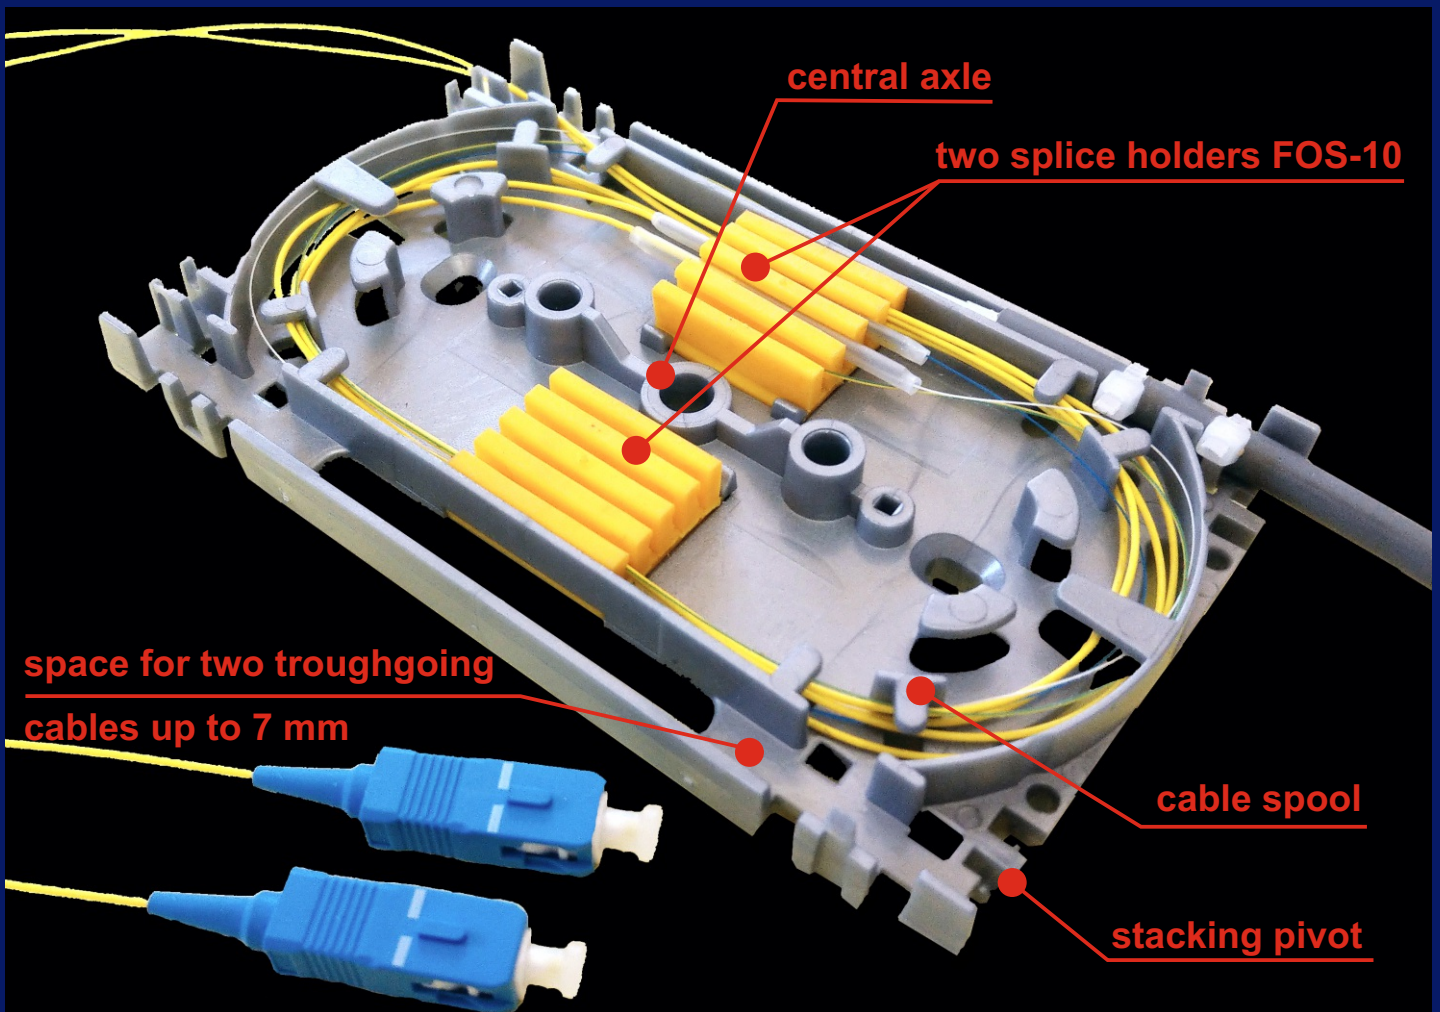

## FOS-41NG

New generation very compact fiber optic splicing cassette for up to 16 splices

In 2022th Our splicing cassette FOS-41 was updated and two soft, rubberized splice holders added.

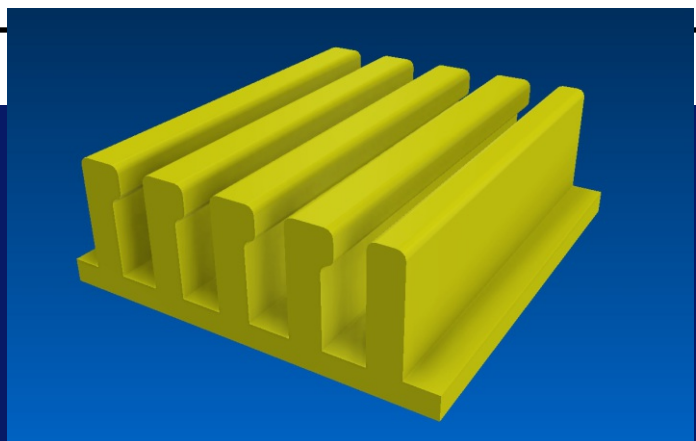

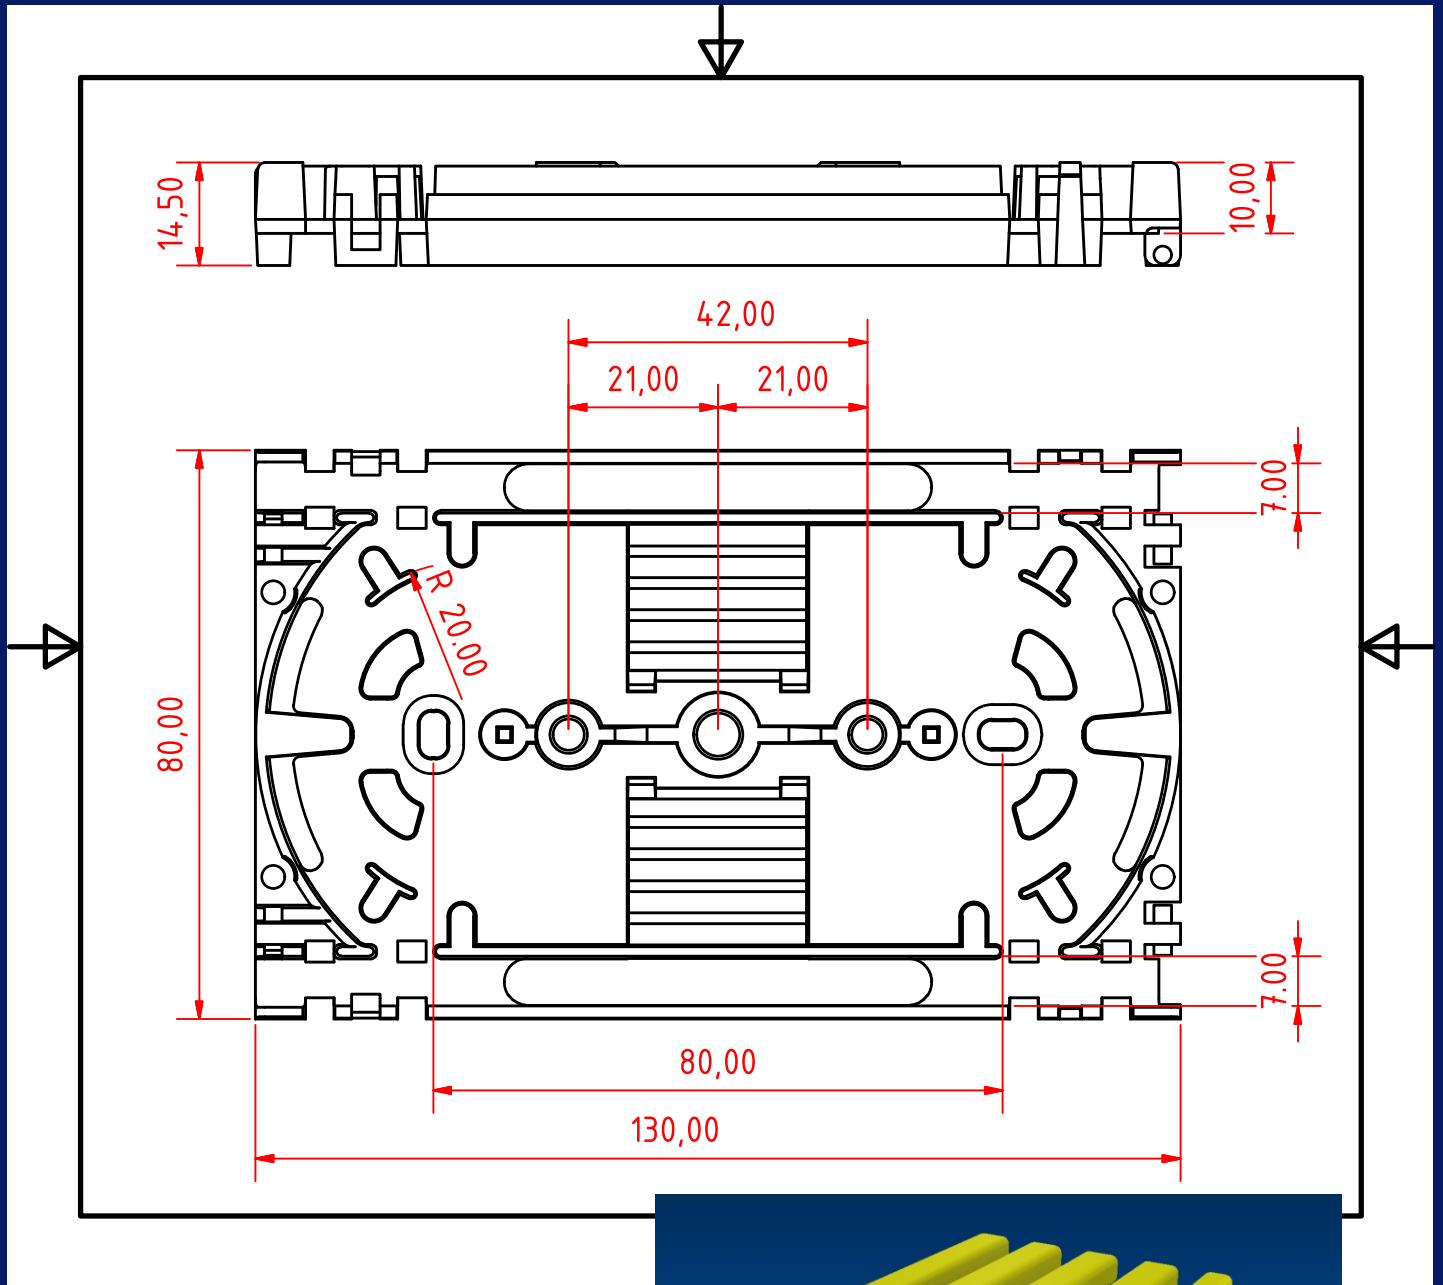

This new model FOS-41NG fully replaces previous model and serve as key component for many other fiber optic products.

One cassette provided for 16 splices.

# ComNet

Producing of communications & data centers equipment since 1997th

Thanks to two soft splice holders FOS-10, new cassette gently fixes up to 16 splices

Dimensions : only 130\*80\*10 mm  
Weight : about 38 gr

When stacking, each cassette occupies only 6 mm of height

Made from hig-grade PC plastic
