FOS-10

Splice holders FOS-10A and FOS-10B developed for delicate fixing up to 8 splices. They are made from soft rubberized plastic.

Splice holders FOS-10A intended for splices with diameter 2.0 - 2.4 mm

Splice holders FOS-10B intended for splices with diameter 2.4 - 2.8 mm

Those holders available in set of 8 pcs, incl. double sided adhesive tape.

In the near future, they will be a key component for other fiber optic products which is under development, like splicing cassettes FOS-41NG and closed splicing cassette FOS-24

Dimensions : 25*24*8.5 mm
Weight : about 5 grams
